## In Memory Of—

When we say a good man has passed away, we say many things. In the passing away of Mr. V. A. Kubecka we have lost an example of a southern gentleman in every sense of the word.

Words of praise are not spoken often enough in life. In death we realize how much they have meant to us, and how much we do love and appreciate them.

His life was earnest, simple and unassuming. He was honest in his dealings with his fellowman, friendly to people in all walks of life. He was never too busy for a warm hand shake, a friendly smile and a word of commendation for everyone he met. Perhaps the outstanding trait of his christian character was his love of people. Indeed, for him it may be said, "He loved his friends."

## Cotton Vote Due Farmers Dec. 10

### MILAM ASCS REPORT

Cotton farmers will vote Tuesday, December 10, on marketing quotas for the 1964 crop of upland cotton, according to Alva E. Sanders, office manager of the Milam County Agricultural, Stabilization and Conservation Service.

A person is eligible to vote if he was either the owner or the operator of a farm for which an acreage allotment was established for 1963. Wives of eligible voters may also vote. At least two-thirds of the growers voting must approve the quotas if they are to continue in effect.

The vote is not on allotments, Sanders explained. No matter how the vote turns out, cotton allotments will remain in effect as a means of determining eligibility for price support.

If quotas are approved, price support to growers who comply with their farm allotments will be available at a level between 65 and 90 percent of parity.

If the vote is against quotas, price support to cooperating farms will be 50 percent of parity. Those who exceed their allotment will not be eligible for price support in either case.

Polling places have been announced for the 1964 cotton marketing quota referendum in the following Milam County communities: "A" Community - Ben Arnold Recreation Hall in Ben Arnold and Clarkson School in Clarkson; "B" Community - Bailey's Store in Branchville and Thweatt's

## James Wiggs Family

### Moves To Houston

Mr. and Mrs. James Wiggs and children have moved to Houston where Mr. Wiggs is associated with Southwestern Life Insurance Co.

Residents of Cameron for the past 12 years, the Wiggs were active civic workers. Mr. Wiggs had served on the Chamber of Commerce Board of Directors, the Cameron Country Club Board of Directors, is a past president of the Lions Club and was a member of the Cameron Junior Chamber of Commerce.

Mrs. Wiggs served on a number of civic projects during their residence here, the most recent was the successful art show at the Town and Country Fair. She had been an active member of the Three Arts Club and the Fleur-de-lis Garden Club.

outstanding Conservation efforts on all of their land. But the 185 acre farm owned by Alfred and Lawrence Vrazel Jr. has been their conservation showplace.

In 1961 they were nominated for the "Comeback Farmer of the Year" in the Central Texas Soil Conservation District.

This year they have won the coveted plaque and trophy in the district for having the "Best Maintained Conservation Plan."

They will now be entered by the Central Texas SCD in the Regional and State Fort Worth Press Awards contest.

#### LAND RUN-DOWN

When they purchased this 185 acre Blackland farm a few years ago, it was eroded, run down and low in fertility with a low production record.

Immediately they became a co-operator with the Central Texas SCD and worked out a basic conservation plan with SCS technicians at Cameron.

The permanent practices of this plan were applied quickly. Fourteen acres of waterways were shaped and sodded to Coastal Ber-

muda in the spring. Then by late fall 43,000 feet of terraces were built, 31,000 of these were parallel terraces.

During the next year 20 acres of the lower land was sodded to coastal bermuda and two farm ponds were built for stock water. **SYSTEM USED**

All of these conservation practices are well maintained each year. They use a conservation cropping system that not only maintains, but improves the soil. All land is farmed on the contour, all crop residues are managed to provide greatest protection and stabilize organic content. Fertilizer is used as needed.

The pastures are divided so that they can be rotated and managed for better production and conservation.

Wildlife has not been overlooked. Both ponds have been stocked with fish and cover and food is placed throughout the farm for small game and birds.

The results of the work that has gone into this farm is an example of what can be done on the Blackland farms of Central Texas.

## Christmas Mailing

### Aid Offered By

### Postmaster Hays

Postmaster Hays offered these helpful hints today on how to mail your Christmas cards and gifts to insure prompt and safe delivery before December 25th.

If you use the new five cent Christmas Tree stamps on your Christmas cards, they will be sorted and delivered first, and if you include your return address with your ZIP Code number on each card envelope, they will be forwarded in the event of a change of address, or if they are undeliverable, they will be returned to you for correction of your mailing list.

Also, remember you can write personal messages only on Christmas cards sent by First Class mail. Nothing but your signature is authorized on cards sent at the unsealed, Third Class rate.

The Postmaster warns against careless packing of your precious Christmas gifts. He says it is unbelievable how some people fail to use strong cartons, heavy wrapping paper and sturdy cord when packing their precious gifts for mailing. He requests that you take special care in packing breakable gifts - mark the cartons, "Fragile" - "Handle With Care" and be sure to put an extra label carrying the recipients and your name and address INSIDE of every package.

Postmaster Hays also said, "By giving special attention to your Christmas mailings right now, by being sure that your mailing lists are up-to-date and by planning your mailings so that you send out your cards and packages in groups, rather than all at one time, you'll be certain that all your Christmas greetings and gift packages reach their destinations before Christmas."

The Postmaster asks the cooperation of all business firms to delay the mailing of circulars and catalogs until after December 25th, to keep the mails clear for the Christmas rush.

If you use Christmas stickers or seals, put them on the BACK of your Christmas cards and packages so that they will not conflict with the address on the front. Make sure that correct postage is firmly affixed to each card and package. When mailing gifts, it's a good idea to place a piece of transparent cellophane tape over the address portion of the label to prevent defacing it in transit.

Keep in mind that parcel post size and weight limitations vary according to destination, so be sure to ask about them when you go to the Post Office to buy stamps.

The Postmaster said that it will be a merrier Christmas if everyone strives to get all of their Christmas presents mailed before December 10th. Christmas cards for out of town delivery should be sent before December 15th, and those for local addresses should be mailed at least a week before Christmas.

The Postmaster also said he is most appreciative of the interest and cooperation shown by the mailing public so far, and said that "Do it now" is the slogan from here on in. Don't put off your Christmas mailings while you still have time because this means that dreaded pile-ups will occur at the Post Office, causing unavoidable slowdowns in deliveries as the holiday approaches.

## Bloodmobile Gets

### 125 Units, Tops

### Goal For Year

About 125 units of blood were received by the Red Cross Bloodmobile in Cameron on December 3, according to chairman Eugene Smithman.

This was some 25 short of the goal set for this visit but will help make up the deficiency of the amount of units received in previous visits. Thirty eight donors were rejected.

Over 20 workers contacted donors for three weeks prior to the visit of the bloodmobile and signed up 175 persons.

The goal was to have 225 prospective donors show up in hopes of receiving at least 150 units of blood.

In past visits the goal had been 70 pints, indicating that this visit was a tremendous success. The program is five units over the goal for this year.

### FOR CHILDREN'S

### GIFT PROJECT

Toys for over 140 needy children in Cameron had been ready by workers in the 'Toys For Tots' project by mid-week. Lloyd Rider, chairman of the program said more toys were needed before the December 15 deadline.

He said toys could be taken to the Anderle Lumber Company where a group of men are working on the toys.

"Dolls and stuffed toys can be fixed too," he said. Several women have been helping also, making clothing for the dolls and fixing the stuffed toys.

"I am so pleased with the turnout thus far and the stores have helped tremendously by donating items," he said.

So far only a few of the men have been helping with the work but Rider said in the next three weeks the entire work force would be called on to help complete the project.

The 'Toys For Tots' project was taken on this year for the first time since 1958 when the sponsoring Chamber of Commerce disbanded.

The Chamber of Commerce is working in cooperation with Rider along with many who have donated their services.

Plans for the distribution of the toys are being laid and the parents will be notified as to the time and place to meet to pick up the Christmas gifts.

If in some instances, the people cannot be present when the toys are distributed, they may be delivered.

Any person that cannot help in repairing the toys, but would like to make a contribution to help meet the expense of paint and equipment used in repairing the articles, will be appreciated.
